

Cone Puppet

Colour card
Felt-tip pens

Straw/stick
Sellotape

Pencils
Scissors

Draw around and cut out the cone template onto card.

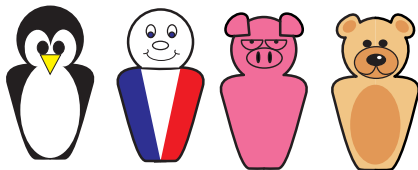

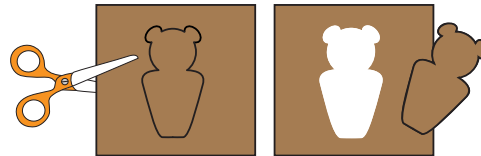

Bend the card into a cone and release (A).

Place some tape along one edge of the card, bend into a cone again and seal by pressing the tape down firmly (B).

There should be a wide opening at the top and a small hole at the base (C).

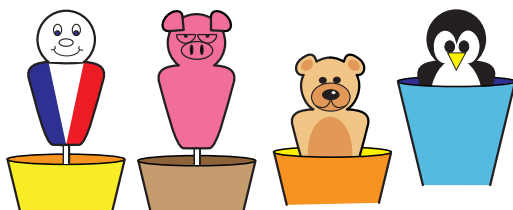

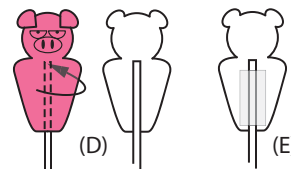

Take the person/animal template, place onto card, draw around and cut out.

Decorate as required.

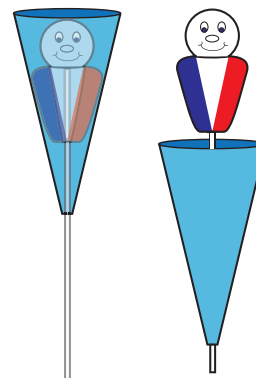

Turn the person/animal card over so the face is on the table (D).

Take a straw and tape in place at the rear of the shape (E).

Place the long end of the straw into the cone so that the end sticks through the small hole at the base.

To work the puppet, hold the cone in one hand and the straw in the other hand and move the straw up and down.
