

# Lolly Stick Notice Board

8 Lolly Sticks  
PVA glue  
Paintbrush

Hanging Chord  
Card

Colour pens  
Newspaper (for protection for drying)

Take 6 lolly sticks and lay them down on a flat surface equally spaced apart.

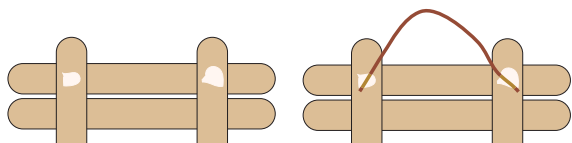

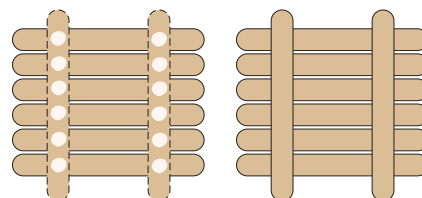

Put a drop of glue on each stick in two places, in a straight line.

Place another lolly stick, vertically onto the glue drops on the left hand side.

Then place another lolly stick, vertically onto the glue on the right hand side.

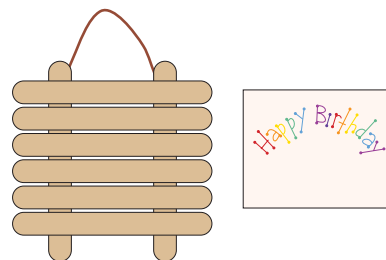

This should cover all the glue drops. Leave to dry.

Place some glue onto the vertical lolly sticks, then place the hanging cord ends into the glue, leave to one side to dry thoroughly.

Take a piece of card the size you want that fits onto the notice board and write your message.

This can be fixed permanently with glue or use BlueTac for a non-permanent fixing.

When all the glue is dry you can varnish the notice board.

This can be done by mixing PVA glue with water, then applying it all over one side of the notice board. Leave to dry. Turn over and do the same to the other side. Leave to dry.

The notice board is now ready to be put up.
