

# Recycled Mini Trees

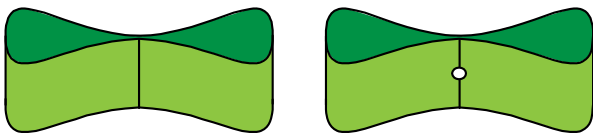

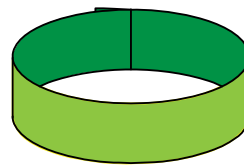

Paper strips  
(Ribbon or Magazine pages can also be used)  
Glue

3 large beads  
1 small bead  
Wire

Cut about 8 strips of paper, 20 mm x 297 mm.  
Cut about 8 strips of paper, 20 mm x 220 mm.  
Cut about 8 strips of paper, 20 mm x 150 mm.

Take each end of the paper strip and glue together to make a circle.  
Do the same with every other strip of paper, regardless of size.

Squeeze the centre of the circle together and punch a hole through the middle.

Do the same with every circle of paper.

Insert end of the wire into a small wood block. Apply some glue and let dry.

Place a bead onto the wire.

Starting with the longest strips, thread the wire through the hole then thread each of the circles onto the wire.

Add another bead onto the wire, and then follow with the next longest strips.

Add another bead onto the wire, and then follow with the smallest strips.

Add a smaller bead at the top. Curl the top of the wire to keep it all together.
