

# Zebra Note Card

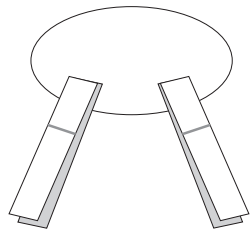

White Card  
2 wooden pegs

Black felt-tip pen  
Glue

Scissors  
Pencils

Use the templates for the body, head, ears and neck, carefully trace around them onto white card.

Cut out and using the black felt-tip pen draw in the zebra's stripes.

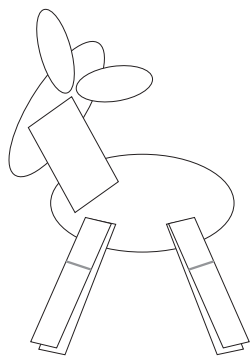

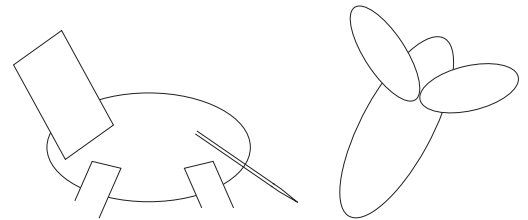

Glue the two pegs to the plain side of the orange body, making sure that the end of the peg that you squeeze to open is at the bottom, these become the hooves.

Now attach the neck at one end and the tail at the other, gluing on the reverse side of the body.

Take the head and turn it over so that the plain side is towards you.

Attach the two ears at the top of the head.

Glue the head to the neck.

The Giraffe is now ready to take your notes.
