

Cheerleader Pom-Poms

Tissue paper
Stick

Scissors
Sellotape

Glue

Begin by placing four sheets of tissue paper one on top of each other.

Cut 1-inch-wide strips through all the layers, stopping just short of the long side so that strips will hold together.

Place some glue along the uncut edge on each sheet of tissue paper.

Place the layers one over the other.

Starting at one corner, roll the edge tightly around one end of a short dowel or card tube.

Use sellotape to secure the bottom of the pom-pom to the dowel.

Repeat entire process, beginning with the four sheets of tissue paper, at least two more times, to make the ball fluffy.

Add more if required.
