

Kitten Mask

Template
Colour Card

Elastic or chord
Colour pencils

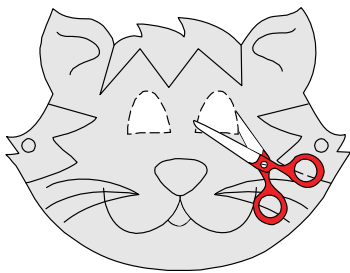

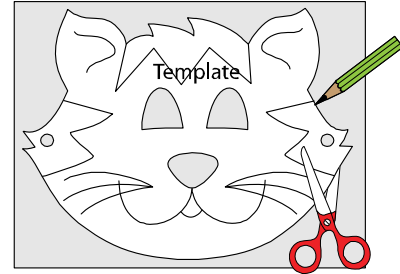

Sellotape
Pencil

Scissors
Hole punch

Place the mask template on to card and trace around the outside with the pencil.

Remove the template and leave on one side.

Cut out around the outside of the mask.

Carefully cut out the two eyeholes.

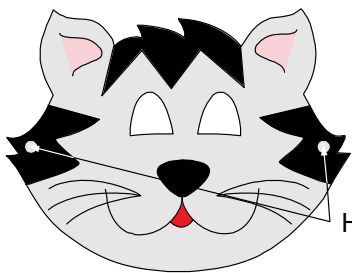

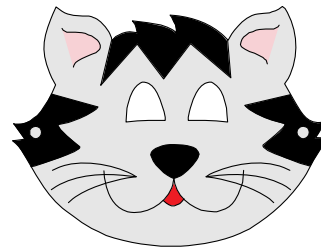

Colour in:

The ears – Pink.

Nose – Black.

Mouth – Red.

Markings – whatever colour you like.

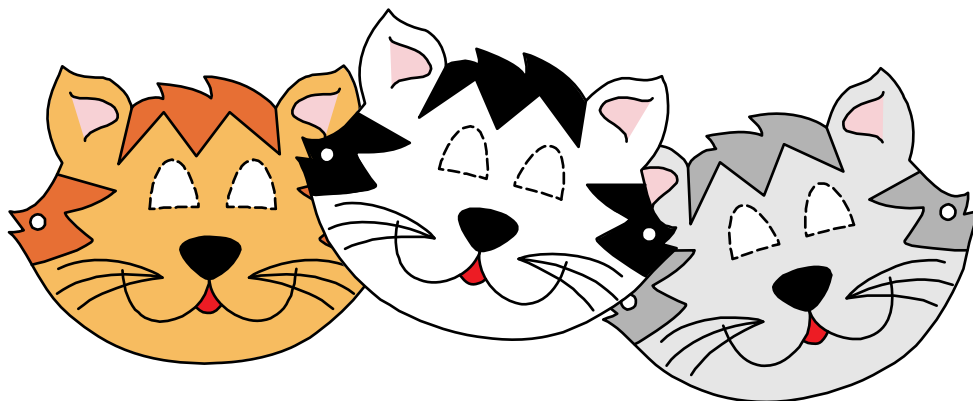

Hole punch

Mark the appropriate spot on each side of the mask to punch holes.

After you punch the holes, reinforce them with tape so that the mask doesn't rip while being worn.

Thread a length of elastic or chord through each hole and tie a knot to secure it.

Make sure the mask fits snugly but not too tightly around the head.
