

Peg Coasters

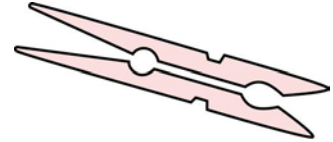

22 wooden pegs

Wood glue

sandpaper

Take 22 wooden clothes pegs and remove the metal spring from each one.

Discard the metal springs.

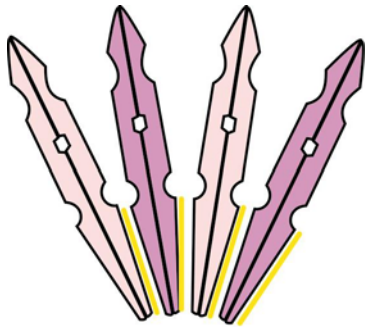

Use wood glue.

Put a strip of glue along the long straight edge of one peg.

Place the long edge of the other half of the peg on top of the glue hold them together and let them dry.

Glue all 22 pegs in the same way.

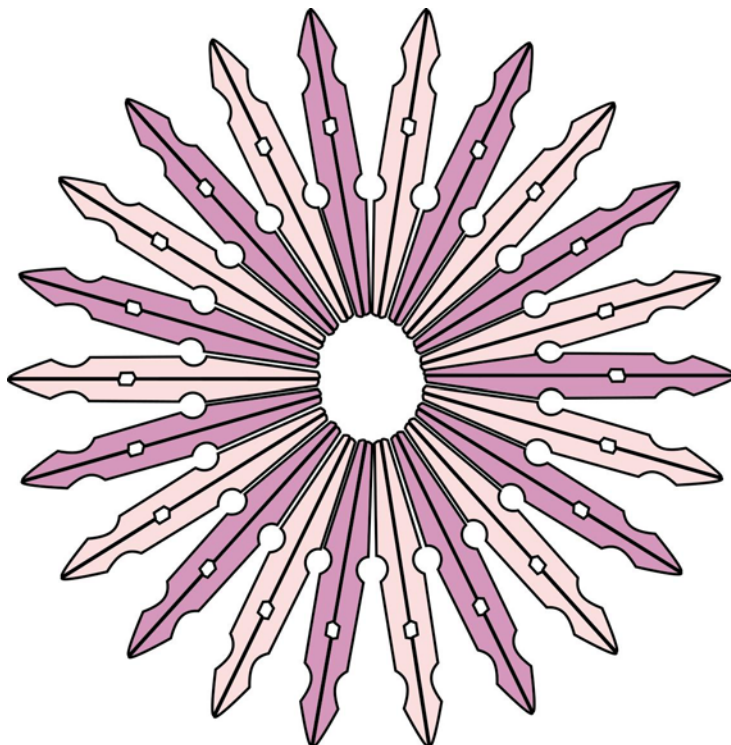

To make the spiral put some glue along one side of the point.

Place the next peg alongside and glue the side of the point in the same way.

Keep gluing and placing pegs until you have a circle.

Allow to dry thoroughly.

When your coaster is thoroughly dry use fine sandpaper to rub off the excess glue and any rough edges.

This can now be painted or varnished.
