

Rosette

Card
Glue

Crepe Paper
Scissors

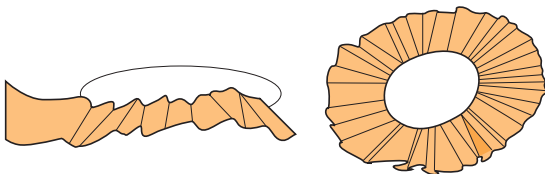

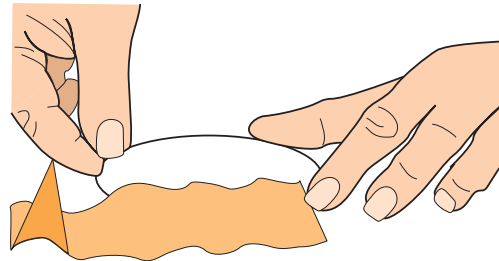

Felt-tip pens

Cut out two circles of card to the size you require.
The larger circle is the base of the rosette.
The smaller circle is the front of the rosette.

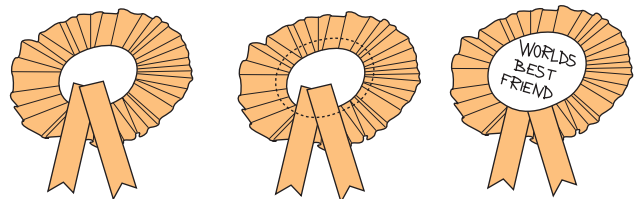

Put some glue all around the edge of the larger circle.

Cut a long strip of crepe paper for the edging of the rosette.
Pleat it around the edge of the large circle catching it in the glue.
If the glue gets dry, replace with fresh glue.

Keep pleating the crepe paper evenly around the outside edge of the circle until there is no edging of the card showing.

Cut two pieces of crepe paper and make a 'V' in each end.
Put some glue onto the white circle in the middle and attach the tails to this.
Put glue all around the smaller circle and place in the middle of the rosette.
Press to fix in place and leave to dry.

Put a message in the middle of the rosette.
