

# Sun and Moon

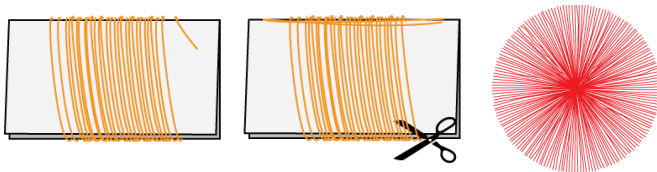

Wool  
Stiff card  
Goggle eyes

Colour card  
Scissors

Sellotape  
Glue

Take a piece of stiff card and fold it in half lengthways, this will become the winder for the wool pom-pom.

Take the wool and wind around the card approximately 60 times or until the pom-pom is thick enough for you.

To finish off the pom-pom cut a length of the same wool and fold it in half.

Slide it underneath the winds of wool around the card and take it to the top of the fold.

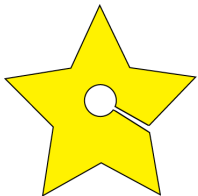

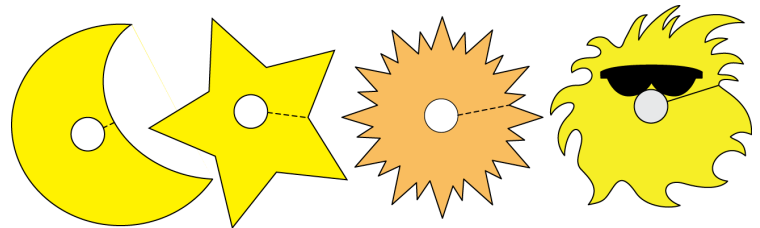

Tie a knot in the wool drawing all the winds together.

Carefully cut through the bottom of the winds and tie the knot at the top very tightly.

Fluff out the pom-pom.

Cut out the shape of your Sun or Moon.

If you are using the sun with sunglasses, cut them from black card.

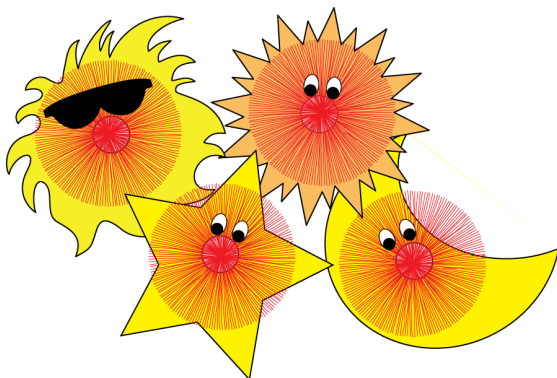

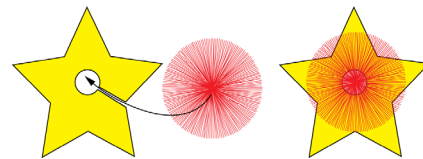

Take your chosen shape and cut a slit through to the hole in the middle of the design.

The hole is for the middle of the pom-pom to sit.

Carefully put the middle of the pom-pom through into the middle of the card shape.

Seal up the cut with sellotape so that the pom-pom stays in place.

Decorate the Sun and Moon with goggle eyes.
