

Tiger Mask

Card
Scissors

Felt-tips
Elastic or wool

Pencil
Template

You will need a cut out of each of the templates before you start. One is the basic shape of the mask and the other is the cut away version for the tiger markings.

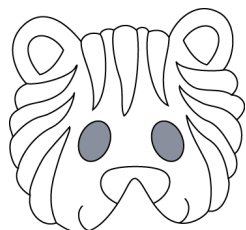

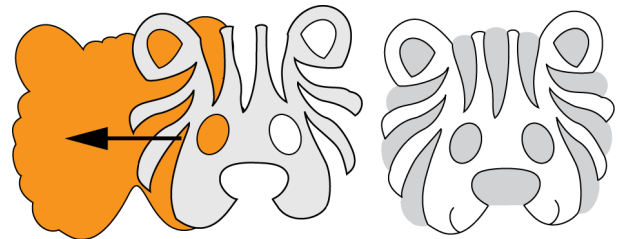

Place the plain template onto colour card.

Draw around the template to get the outside lines of the tiger mask.

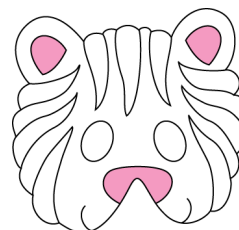

Cut out the mask.

Place the second cut out template on top of the first shape and draw around the cut out areas (shown as shaded).

If you don't want to use the tiger marking, just draw around the eyes, ears and nose.

Start with the basic mask and cut out the eyes

Colour in the ears and nose.

Colour in the tiger stripes.

Make a small hole either side of the mask and attach elastic or wool to hold the mask over the face.
